

Better Together: BEMER for Horses and Riders

BEMER stands for Bio-Electro-Magnetic-Energy-Regulation. BEMER devices use a pulsed electromagnetic field (PEMF) to deliver a patented bio-rhythmically defined therapeutic signal. The BEMER signal helps temporarily improve local blood flow in healthy muscles. BEMER is the only PEMF device designed specifically to target the circulation within the muscle tissue – the core system necessary for optimal health.

BOYD MARTIN

Olympic Eventer & BEMER Ambassador

"About five years ago, I felt like I started feeling a bit old. I've been doing this for the last 30 years pretty hard. It's a lot of wear and tear on your body. I just started feeling stiff and sore. Using the BEMER GO-Set everyday I do think makes a big difference for me. It's not like you jump off the B. PAD or the B. SPOT and feel magical, I really feel like it's an accumulative effect. Part of being a top trainer

is feeling like you are doing absolutely everything you can to make them feel their best. The BEMER product gives me the peace of mind that the horses and myself feel as good as we can."

BEATRICE DE LAVALETTE

Para-Dressage Rider & BEMER Ambassador

"Being in my wheelchair full-time can sometimes lead to poor circulation, and having to push my wheelchair around also causes my trap muscles to tighten up and ache! The BEMER GO-Set helps me with both of those issues and I can use it anywhere I go, like here in the tack room of my barn. I like to do a session before I ride my horses so I feel more warmed up."

BRANDON PHILLIPS

Professional Polo-Player & BEMER Ambassador

"When I started using the BEMER GO-Set for my own issues I felt a difference in a matter of days. Therefore, this gave me more confidence that my horses were feeling the same results as I was. I use the BEMER GO-Set on myself almost every day and I use the BEMER Horse-Set about 4x a week for maintenance on my horses."

**Your horse is at the top of its game.
You should be too.**
